

The Pre-Construction Meeting

Your Pre-Construction [PC] Meeting is the final meeting before your home is released to the field for construction. At this point all of your options and selections have been finalized and your site has been prepared for construction.

The purpose of the PC Meeting is to meet your NDI Production Team and discuss the last minute details before construction begins. Prior to the PC Meeting the following must be completed:

Pre-Construction Prep Meeting

- Approved building permit, building plans and site plan have been issued and received
- Site preparations including clearing, construction driveway, silt fencing as well as house stakeout have been completed and cut sheet received.
- Construction financing is in place with loan closed or cash deposited
- NDI has received copy of Builder's Risk Insurance Policy
